Fusion Cheats

Category: Fusion Rigs
December 19, 2023
You’re probably aware that turning your Yaesu Fusion radio on whilst holding down one or more buttons causes it to do different things. There’s a self-test on the FT1. The FTM-200 can display supply voltage. The FTM-500 can do cross-band repeat. Right now we have some handy Fusion cheats that work on the FTM-200, FTM-300, and FTM-500 with more to come.
