

Old Stuff – Broadcasting

All About FM

This week we have a couple of documents from the early 1940's explaining FM. At this time FM was very, very new. It had the benefit of reducing the noise one would hear on AM. A lot of work went into convincing the world that FM was the way of the future.

AM Broadcast Transmitters

Some classic (and one BIG) broadcast transmitters.

[Raytheon RA-250](#) Popular with 250 watt small town, low budget stations (1.2 MB)

[Bauer 707](#) Popular with the 1KW day / 250 night stations. Offered as a kit! (2 MB)

[Continental 105C](#) A 1,000 KW transmitter! (8 MB)

The Story of Stereo 1960

From 1960 the story of stereo from having two ears to stereo LP's and FM!
