

Hams in the Park

March 14, 2019

Come on over and set up your radio gear, HF, QRP, VHF, UHF, satellite, or whatever and enjoy the company of like-minded friends. Show off your equipment, see what others have, compare notes, learn and have fun! This is not a contest just a place for hams and those interested in Amateur Radio to get together and share the hobby. We encourage other groups to hold their own "Hams in the Park". If you do, let us know! If it's on the same day, let's try to make contact via HF and, of course, Fusion. We'll post your event(s) here. Let us know about your plans by sending Email to park at HamOperator dot com or reaching us on the HamOperator About page.

Different park locations should try to coordinate using MNWis. From there we can work on park-to-park communications using HF modes.

2021 Season

The 2021 season dates have been posted on the calendar. Dates are May 8, June 12, July 10, Aug 14, Sept 11, Oct 9.

These events are sponsored by BARS. All events are at Long Lake Regional Park except for August which is held at Swing Bridge Park in Inver Grove Heights. See below for more information.

Other Parks

Can't make it our event? Have your own event then! We're looking to partner with other groups who are having their own "Hams in the Park". We'll list other park event details here.

Photo Gallery

Visit the Hams in the Park Photo Gallery for a look at past events.

Directions – For Swing Bridge Park

See: Map of Swing Bridge Park

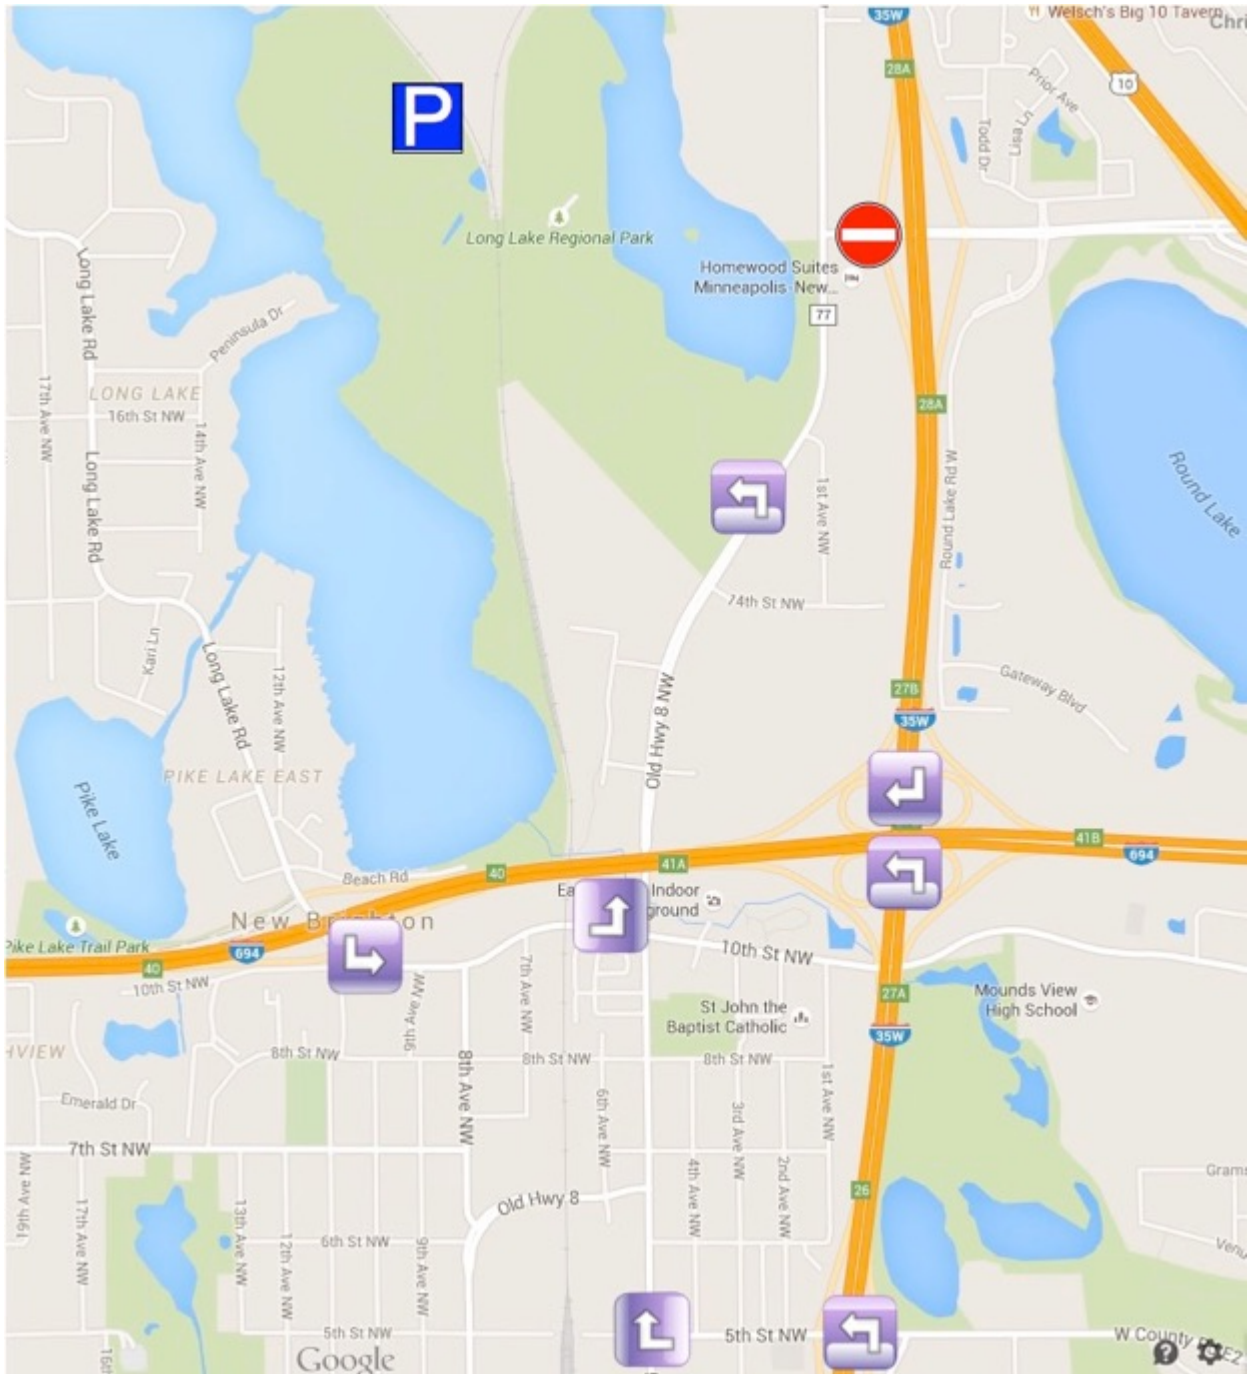

Directions – For Long Lake Park

- 35W from the South: Exit at West County Road E2 (26). Head West then turn right on 5th Ave NW. Continue onto Old Hwy 8.
- 35W from the North: Take 694 West
- From 694: Exit on Long Lake Road (40). Turn south and follow 10th St NW to Old Hwy 8. Travel north on Old Hwy 8 to the park entrance.
- At the park entrance, travel past the railroad tracks then turn right. We'll be in or around the parking lot.

There are bathrooms but no power hook ups. There are many trees and open areas or for antenna placement, along with open areas available to set up a table.

For more information contact Chuck, K00RK via ARRL E-mail using his callsign at arrrl.net.
